

Help a home open.

Beautiful, safe, dignified homes instead of a motel or park, for families, older women and people who would otherwise be in a motel room.

IMAGINE

Leaving your home tonight with your children and your dog, and only what you can carry. You do not know where you will sleep. Now imagine a home was waiting.

Vesper J was created by a mum who lost everything and had to start again. Every home we open is so that no other family starts that way.

What your gift does

$12,000

Furnishes a home

Beds, a kitchen and a living room: everything that turns a house into a home.

A home, not a motel room.

$20,000

Activates a home

Furnished, secure and set up around an organisation's need, ready for its first family.

365
nights a year of families, people and pets in a home, at most.

$100,000

Activates about five homes

Five homes, ready for the people services are trying to help.

1,825
nights a year of families, people and pets in a home, at most.

Every night counts: one night in a home is one night not in a motel room. Nights shown are the most a home can offer in a year.

Ways to help.

There is a way for everyone: give, donate goods, offer a skill, or partner with us.

Furniture
Beds, sofas, tables and linen. Ex-stock and ex-display from hotels, offices, clubs and retailers is very welcome.

White goods and appliances
Fridges, washing machines, dishwashers and microwaves, in good working order.

Upgrades
Secure fencing and gates, security screens, sensor lighting and locks, so a home is safe from the first night.

Kids' play
Play equipment, cubby houses, playgrounds and toys, so children have somewhere to be children.

Pet partners
Beds, bowls, food, grooming and vet care. Pets are family.

Financial gifts
A one-off or regular gift towards furnishing and activating homes.

Company partnership
Sponsor a home, run workplace giving, or give your team's time and skills.

Time and skills
Trades, cleaning, a working bee, or legal, accounting and design help.

Pets are family.
When Abbey's family fled, their dog Chilli went into an emergency pet program and could not stay. No one should have to leave a loved animal behind to be safe.

Let's talk.
